# Quality Environmental Containers

## **SAFETY DATA SHEET**

## 1. Identification

Product identifier	FERROUS AMMONIUM SULFATE, REAGENT (ACS)
Other means of identification	
CAS number	7783-85-9
Synonyms	AMMONIUM FERROUS SULFATE * MOHR'S SALT
Recommended use	professional, scientific and technical activities: other professional, scientific and technical activities
Recommended restrictions	None known.

Manufacturer/Importer/Supplier/Distributor information Manufacturer			
Company name Address	Quality Environmental Cont 607 Industrial Park Road Beaver, WV 25813 United States	ainers, Inc.	
Telephone	Phone Fax	304-255-3900 304-255-3901	
Website	www.qecusa.com		
E-mail Emergency phone	info@qecusa.com Emergency Assistance	Chemtrec 800-424-9300	

## 2. Hazard(s) identification

number

Physical hazards	Not classified.	
Health hazards	Acute toxicity, oral	Category 4
	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 2B
	Specific target organ toxicity, single exposure	Category 3 respiratory tract irritation
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 3
	Hazardous to the aquatic environment, long-term hazard	Category 3
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Warning	
Hazard statement	Harmful if swallowed. Causes skin irritation. Ca Harmful to aquatic life with long lasting effects	auses eye irritation. May cause respiratory irritation.
Precautionary statement		
Prevention		bray. Wash thoroughly after handling. Do not eat, only outdoors or in a well-ventilated area. Avoid loves.
Response	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. IF ON SKIN: Wash with plenty of soap and water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a POISON CENTER or doctor/physician if you feel unwell. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse.	
Storage	Store in a well-ventilated place. Keep containe	r tightly closed. Store locked up.

Disposal	Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

## 3. Composition/information on ingredients

Substances

Chemical name	Common name and synonyms	CAS number	%
FERROUS AMMONIUM SULFATE	AMMONIUM FERROUS SULFATE MOHR'S SALT	7783-85-9	100

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	Remove contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Do not use mouth-to-mouth method if victim ingested the substance. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Nausea, vomiting. Abdominal pain. Diarrhea. Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort. May cause respiratory irritation. Skin irritation. May cause redness and pain.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

## 5. Fire-fighting measures

Suitable extinguishing media	Use extinguishing agent suitable for type of surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	None known.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Use water spray to cool unopened containers.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Prevent entry into waterways, sewers, basements or confined areas. Avoid dust formation. This product is miscible in water. Prevent product from entering drains.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Do not taste or swallow. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage,	Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS)

including any incompatibilities (see Section 10 of the SDS).

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits. ..... ACCTUT

US. ACGIH Threshold Lim Material	it Values Type	Value
FERROUS AMMONIUM SULFATE (CAS 7783-85-9)	TWA	1 mg/m3
US. NIOSH: Pocket Guide	to Chemical Hazards	
Material	Туре	Value
FERROUS AMMONIUM SULFATE (CAS 7783-85-9)	TWA	1 mg/m3
Biological limit values	No biological exposure limits noted	for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. Eye wash fountain and emergency showers are recommended.	
Individual protection measur	es, such as personal protective eq	uipment
Eye/face protection	Wear safety glasses with side shield	s (or goggles). Face shield is recommended.
Skin protection		
Hand protection	Wear appropriate chemical resistan	t gloves.
Other	Wear appropriate chemical resistan	t clothing. Use of an impervious apron is recommended.
Respiratory protection	In case of insufficient ventilation, w dust formation.	ear suitable respiratory equipment. Wear respirator if there is
Thermal hazards	Wear appropriate thermal protectiv	e clothing, when necessary.
General hygiene considerations	measures, such as washing after ha	om food and drink. Always observe good personal hygiene andling the material and before eating, drinking, and/or smoking. protective equipment to remove contaminants.

#### 9. Physical and chemical properties

Appearance **Physical state** Solid. Form Crystalline. Color Pale green. Odor Slight. **Odor threshold** Not available.

рН	Not available.
Melting point/freezing point	212 °F (100 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or e	xplosive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	270 g/l @ 30 °C
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	1.86 g/cm3
Explosive properties	Not explosive.
Molecular formula	Fe(NH4)2(SO4)2.6H20
Molecular weight	392.14 g/mol
Oxidizing properties	Not oxidizing.
Specific gravity	1.86

## 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	May oxidize slowly in air especially if damp.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	None known. Contact with incompatible materials.
Incompatible materials	Contact with strong bases liberates ammonia.
Hazardous decomposition products	Ammonia. May include oxides of nitrogen.

## 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. Prolonged inhalation may be harmful
Skin contact	Causes skin irritation.
Eye contact	Causes eye irritation.
Ingestion	Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Nausea, vomiting. Abdominal pain. Diarrhea. Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort. May cause respiratory irritation. Skin irritation. May cause redness and pain.
Information on toxical givel	

#### Information on toxicological effects

**Acute toxicity** 

In high concentrations, vapors are anesthetic and may cause headache, fatigue, dizziness and central nervous system effects. Harmful if swallowed.
