

Custom Barcodes made for your lab & LIMS

QEC will create bar codes to interface seamlessly with your lab's tracking protocols and/or LIMS program, for complete traceability and absolute accountability.

QEC Custom Bar Codes are printed to order on high quality label stock with indelible ink. Permanent adhesive and resistance to water and most solvents assure long-lived reliability.

Customized Bar Codes are available only on QEC containers

Basic Bar Code...

Lot Number:
Available on all products at all levels.
Incorporates date of production
